## Who this is for

A team with one manual process that feels slow, repetitive, or hard to scale.

## Common situations

- Back-office operations
- Client onboarding
- Support request handling

## What you get

- One review call about the workflow
- Review of the current steps, handoffs, or documents
- Top three opportunities for AI or automation
- A short written recommendation with next steps

## Results

- A clear list of the best places to save time or reduce manual work
- A better understanding of what AI should handle first
- A practical next-step plan for the team

## Why people choose this package

- Good for teams deciding where AI can create the most value
- Focused on one workflow so the advice stays specific
- Easy to use as a first step before a larger engagement

### CLIENT FEEDBACK

The review gave us a practical shortlist and helped us choose the right first step.

Operations Lead · Professional Services Firm

The team moved from general AI interest to a clear plan.
